

RECO eTRAC[®]

Preliminary specification Compact Tool Carrier Vehicle

HIGHLIGHTS

- Zero Emission
- High performance full-electric 4x2 powertrain
- HPU for tooling 50 lpm max. 200 bar
- Water-cooled PM wheel motors on front wheels
- Steered rear trailing axle
- Battery capacity 30/40/50 kWh
- Ergonomically designed cabin

Electric Drive motor

Topology	Permanent magnet
Max power	2x23 kW peak, 2x14 kW continuous
Cooling	Water-cooled

eDrive Powertrain

Tires	Front 280/70R16 Rear 195/50R13
Speed	Forward 1-25 km/h transport speed 1-8 km/h working speed Reverse 1-10 km/h

Traction Battery

Capacity	30/40(standard)/50 kWh
Voltage	96-100 VDC
Type	Li-ion

Cabin

Ergonomically designed with highest safety standards

Air-conditioning including heater and defroster

Ergonomic controls and display information

Weight and dimensions

Weight	1400 kg (based standard 40 kW battery)
Maximum width	1300 mm
Height	approx. 2180 mm
Wheel base	approx. 1550 mm
