

RECO *eTRAC*®

100% electric tool carrier

- ✓ EMISSION-FREE
- ✓ MANOEUVRABLE
- ✓ POWERFUL
- ✓ COMFORTABLE

USABLE ALL YEAR ROUND!

JUST AN EXAMPLE OF POSSIBLE APPLICATIONS

WEED SCORCHER ✓

Compact and highly productive hot air scorcher for maximum weed control with minimum energy. Working width 120 cm, weight 170 kg.

✓ ROLLER BROOM

Hydraulic or electric powered roller broom for cleaning pavement, bike paths and clearing leaf or debris or snow. Angle left or right. Working width 150 cm or 170 cm.

MOWER DECK ✓

Fully electric mower deck with rear discharge or recycler. Cutting width 180 cm.

✓ LEAF BLOWER

Powerful and quiet electric powered leaf blower for quick and efficient removal of leaf debris. Adjustable discharge nozzle hydraulically rotatable.

WEED BRUSH ✓

Powerful, fully adjustable and rotating electric brush for efficient weed removal. Follows the surface by hover function and adjustable brush pressure.

✓ SALT SPREADER

Lightweight salt spreader to fit the platform of the RECO eTrac. Electrically powered and multifunctional. Capacity 630 liters, weight 145 kg.

STEAM AND HOT WATER UNIT ✓

Steam and hot water unit for thermal weed control. After placing the unit on the machine's platform, you can work the surface with the different hand lances.

✓ SNOW PLOUGH

Snow plough for small and large areas. Equipped with plastic wear strip to protect the surface. Working width 150 cm.

Cabin

- Ergonomic closed cabin mounted on dampers
- Doors with sliding windows
- Heater and air conditioning
- Ergonomic suspended seat with armrests and integrated controls
- Adjustable steering wheel, angle and height

Implement carrier

Front: A-frame hydraulic lifting

Rear: Cargo box 150 kg or 1,000 kg load capacity

eDrive drive train

Energy-efficient fully electric drive.

Maximum speeds: transport forward 25 km/h

working speed forward 10 km/h

Traction battery

Capacities: 40 / 50 / 60 kWh

Voltage: 96 volts

Type: Lithium iron phosphate (LFP)

Charger: 6.6 kW

Service and spare parts

- ✓ The RECO eTrac is a Dutch invention, designed and developed by various subsidiaries of Royal Reesink.
- ✓ For maintenance and service of your RECO eTrac, you can rely on our mobile service department, modern workshop and experienced mechanics.
- ✓ Warranty machine: 12 months / 1000 hours
Battery pack warranty: 60 months / 5000 hours.
Additional warranty possible.
- ✓ The RECO eTrac has a very low Total Cost of Ownership. The electric implement carrier is virtually maintenance free, you benefit from lower energy costs and you do not need to change motor oil, air filters or radiators.
- ✓ The RECO eTrac is an environmental friendly solution and is eligible for various subsidy opportunities. We would be happy to advise you on the possibilities.
